

THE COSMETIC AND AESTHETIC COURSE

THE COSMETIC AND AESTHETIC COURSE

Take your dentistry to the next level and offer more treatment options for your patients

13 days over 1 year

A course designed to give you a full understanding of cosmetic and aesthetic dentistry, along with how to improve your skills and technique with more hands-on cosmetic work.

The course introduces an abundance of new treatment options for you to offer to patients. It will help you to identify how the techniques in aesthetic dentistry can be best applied in your practice and how you can improve the level of patient satisfaction.

Learn proven cosmetic and aesthetic techniques such as Smile Design, Botox® and Dermal Fillers and the application of modern and alternative techniques.

Course Aims & Outcomes

Broaden your skillset and increase your confidence using new cosmetic techniques.

Strengthen your treatment portfolio introducing new veneer and facial aesthetic treatments.

Improve your job prospects for a career in private dentistry.

Deliver better care for patients and increase your fees from day one.

Create a smile your patient wants and deserves.

Course Venue: Manchester & London

Verifiable CPD: 78 hours

50% practical, 50% theory
